VALENCIA Half Marathon 2026

The final event on the SuperHalves calendar, the Valencia Trinidad Alfonso Zurich Half Marathon is a fast course which previously held three world records from 2017.

But a race would be nothing without its spectators, and Valencia brings them in their thousands as cheering locals come out to support a global gathering of runners. Combine that with a fast course and good weather, and it's easy to see why this event is always a sell-out.

Valencia Halfmarathon is one of the fastest races in the world and one of the most appreciated in Europa, a GOLD LABEL race included in the 6 halfmarathons from SUPERHALFS SERIES. The race in 2025 will take place on Sunday 25 October and is the last one from 2026. The race is already SOLD OUT official with 25 000 runners at the start.

The Royal Spanish Athletics Federation have awarded the Valencia Half Marathon Trinidad Alfonso Zurich the title of the best half marathon in Spain, and when you run this amazing race it's easy to see why.

As well as the best, it's also the country's fastest half marathon. The city centre course winds its way through the busy streets of Valencia, as well as the Maritime Quarter. The route is constantly tweaked to make sure it takes in as much of the authentic city experience as possible, as well as removing some tighter bends to allow for faster finishing times.

Valencia is a travel haven; studded with dazzling beaches, charming people and a mixture of trendy, fast-paced neighbourhoods and relaxed bars where you can chill out. Despite its size, Valencia still has the feel of a small coastal city, and you'll find delicious food and exciting attractions at extremely affordable prices.

As the third largest city in Spain, there's no shortage of things to do in Valencia, and the network of easily available public transport makes getting around a breeze. The locals are welcoming to tourists, and have a love for life that sees many of them staying up until the early hours.

Valencia has a rich cultural history, combined with a recent trend for new ideas and movements. This can be seen in the city's architecture, clubs, bars and incredible art scene, which are constantly evolving.
